

TORONTO STANDARD CONDOMINIUM CORPORATION NO. 2937

Resident Welcome Guide

120 Varna Drive, North York, Ontario M6A 0B3

OFFICIAL GUIDE - OCTOBER 2026

01

Condo Board Members

The Board of Directors is elected by the owners and is responsible for the governance and oversight of Toronto Standard Condominium Corporation No. 2937.

DS

Dylan Stephens

President

Provides board leadership, supports governance and strategic direction, and works with the other directors and property management on corporation priorities.

JK

John Kodric

Treasurer

Supports financial oversight, budget review, reserve-fund planning, and responsible stewardship of the corporation's financial resources.

CL

Charles Lun

Secretary

Supports corporate records, meeting documentation, governance processes, and clear communication of board decisions.

The Board sets governance direction and makes corporation decisions. Goldview Property Management Ltd. manages the building's day-to-day operations and should remain the first contact for maintenance, access, security, service, and building-operation matters.

02

President's Welcome

Welcome to The Yorkdale Condominiums II

Dear Resident,

On behalf of the Board of Directors of Toronto Standard Condominium Corporation No. 2937, welcome to your new home at 120 Varna Drive. We are pleased to have you join our community, and we hope this guide serves as a helpful introduction to life in our building.

My name is Dylan Stephens, and I serve as President of the Board. I am joined by my fellow directors, John Kodric, our Treasurer, and Charles Lun, our Secretary. Together, we are responsible for the governance of the corporation, including the maintenance of our property, sound financial stewardship, compliance with the Condominium Act and our governing documents, and transparent decision making on behalf of all owners and residents.

We are fortunate to live in a vibrant neighborhood, with shopping, dining, transit, and green space all close at hand, and we hope you will enjoy exploring everything the area has to offer.

This guide brings together the essential information you will need as a resident, including our rules, building procedures, and contact details for our property management company, Goldview Property Management Ltd., which handles the day to day operations of the building. We encourage you to review it and keep it handy for future reference.

A condominium community works best when everyone contributes to making it a respectful and welcoming place to live. We thank you in advance for taking the time to familiarize yourself with this guide, and we look forward to seeing you around the building.

Once again, welcome home.

Sincerely,
Dylan Stephens
President, Board of Directors
Toronto Standard Condominium Corporation No. 2937

03

Welcome

This guide gives owners, tenants, occupants, and guests a practical summary of key building rules and procedures. It is designed for quick online reference and printing.

> **This is a summary, not a replacement for the governing documents.** If this guide conflicts with the Condominium Act, the declaration, bylaws, rules, or a valid board policy, the higher-authority document applies. Operational procedures, contacts, fees, and hours may change.

The condominium rules define an "owner" to include another person occupying a unit with the owner's approval. Owners who lease their units must provide tenants with the declaration, bylaws, and rules. Losses, costs, or damages caused by a breach may be charged by the corporation to the unit owner, as permitted by the governing documents.

Main lobby and entrance area.

Everyday Courtesy

PLEASE DO	Respect your neighbours' right to use and enjoy their units and the common elements.
PLEASE DO	Keep hallways, stairwells, entrances, driveways, and other passageways clear.
NOT PERMITTED	Leaving garbage, furniture, bicycles, boxes, or personal property in common areas.
NOT PERMITTED	Posting signs, advertisements, or notices in or outside the building without prior written board consent.

Sources: Schedule XII Rules 2, 5, 6, 9 and 14; Declaration section 10.

04

Contacts & Emergencies

Use emergency services for immediate danger. Use concierge or property management for building operations, security, access, and maintenance concerns.

PROPERTY MANAGER

Ismail Pathan
Goldview Property Management Ltd.

manager.yorkdalecondo@gmail.com
416-630-1234

CONCIERGE - 24 HOURS

437-240-2763
416-782-4242

POLICE - NON-EMERGENCY

416-808-2222

FIRE, POLICE, OR MEDICAL EMERGENCY

911

Active leak or flood: if safe, stop the source or close the unit water shut-off, protect people from electrical hazards, and contact concierge or management immediately. Call 911 where there is a fire, immediate danger, injury, or another emergency.

Landlord Contact Information

Tenants should keep current contact information for the unit owner or landlord. The owner may need to act where a matter involves the lease, unit insurance, repairs inside the unit, formal records, or a proceeding that only an owner or corporation may start.

Name _____

Emergency contact _____

05

Building Security & Visitor Access

Building security depends on every resident. Follow these access and visitor procedures, and report concerns to Security or property management.

RESIDENTS' VISITORS	The intercom is not an in-suite unit. It places a phone call to the number on file for your unit. Keep that number current with management.
VISITOR BADGES	Contractors, realtors, business officials, government officials, and anyone else on site for official or business purposes must be issued a numbered visitor badge by Security and must wear it while in the building. They sign the daily visitor log, and Security holds government-issued photo identification until the badge is returned. Badges are returned to Concierge or Security on departure.
EXEMPT	Fire, police, and medical emergency personnel do not sign in or receive a badge. Residents' personal visitors are not issued badges.
FOBS, KEYS & REMOTES	Your fob, key, or garage remote is issued to you for your own use. Do not lend, copy, or give it to anyone who does not live in your unit. Report a lost or stolen fob, key, or remote to management immediately so it can be deactivated, and keep your name, unit, vehicle, and telephone details current. Management can confirm replacement procedures and any charges.
NOT PERMITTED	Propping open building, garage, or locker room doors, or letting unknown people follow you in. Direct visitors to the intercom or to Security.
REPORT CONCERNS	Call 911 for a crime in progress. Report thefts and security concerns to Security or property management, and report your own losses to Toronto Police for an occurrence number.

Sample visitor badge. The number and code shown are placeholders. Visitors must wear the badge in plain view and return it to Security when they leave.

06

Registration & Moving

Complete resident registration before moving in and reserve the service elevator before any move or extended delivery.

Tenant & Resident Registration

- Summary of Lease or Renewal - Form 5
- Tenant Undertaking and Acknowledgement
- Copy of the lease
- Resident Information Form
- Vehicle registration, where applicable
- Pet registration and photograph, where applicable
- Parcel delivery waiver, if concierge parcel acceptance is requested

Service Elevator Booking

DEPOSIT	A refundable security deposit of **$500 by bank draft**, payable to T.S.C.C. 2937, is required under the approved elevator agreement in effect at publication.
TIME SLOTS	Three-hour reservations: 9 AM-noon, noon-3 PM, 3-6 PM, or 6-9 PM. The form permits Monday-Saturday between 9 AM and 9 PM, with Tuesday slots between 3 PM and 9 PM.
NO MOVES	Moves are not permitted on Sundays or statutory holidays under the current form.
REQUIRED	Request inspections before and after the move, use protective elevator pads, stay within the reservation period, and keep corridors and elevator lobbies clear.

Source: Elevator Reservation Agreement & Inspection Checklist. Confirm the current deposit and schedule with management before booking.

Parcel Acceptance

WAIVER	Concierge parcel acceptance requires a signed waiver on file.
LIMITS	The approved parcel form states that packages over 18 x 18 x 24 inches or 25 pounds will not be accepted. Appliances and hazardous materials are not accepted.
PICKUP	Collect deliveries promptly. The form permits disposal or return to sender after seven days; perishable food is held for 24 hours.

Source: Parcel Delivery Waiver Agreement Form.

07

General Rules

These rules protect life safety, building systems, common areas, and neighbouring residents.

Common Elements & Safety

NOT PERMITTED	Obstructing sidewalks, entrances, passageways, walkways, driveways, hallways, stairwells, or fire exits.
NOT PERMITTED	Doing anything in a unit that increases fire risk, conflicts with fire regulations or insurance, or injures or unreasonably interferes with others.
NOT PERMITTED	Damaging, altering, or littering grass, trees, shrubs, hedges, flowers, or flower beds.

Water & Plumbing

NOT PERMITTED	Leaving water running when it is not in actual use.
NOT PERMITTED	Putting sweepings, garbage, rubbish, rags, ashes, or other substances into toilets, sinks, bathtubs, showers, or drains.
RESPONSIBILITY	Damage from misuse or unreasonable use may be charged to the unit owner responsible for the person who caused it.

Balconies, Patios & Terraces

PERMITTED	Seasonal furniture, while keeping the area clean and presentable.
NOT PERMITTED	Barbecuing or cooking.
NOT PERMITTED	Storing bicycles or other items.
NOT PERMITTED	Awnings, shades, enclosures, satellite dishes, antennas, or similar structures unless expressly permitted by the governing documents.

Sources: Schedule XII Rules 1-4, 9, 12-16.

08

Waste Disposal

Use the current posted waste-system instructions.

Use the chute or tri-sorter only as labelled. Separate garbage, recycling, and organics according to current building signage and management notices. Do not place hazardous materials, oversized items, furniture, or liquids in the chute.

PLEASE DO	Bag waste securely and use the correct stream shown on the chute or waste-room signage.
PLEASE DO	Ask management for current instructions before disposing of furniture, mattresses, appliances, renovation debris, chemicals, batteries, electronics, or other oversized or hazardous items.
NOT PERMITTED	Leaving bags, boxes, furniture, or other items in the chute room, hallway, stairwell, or other common element.
NOT PERMITTED	Putting liquids, hazardous substances, oversized objects, or loose material into a chute where they may leak, jam, or cause damage.

Sources: Schedule XII Rules 1 and 5.

09

Noise & Quiet Enjoyment

Noise restrictions apply at all times, not only during a stated quiet period.

NOT PERMITTED	Creating or continuing noise or another nuisance that, in the opinion of the board or manager, disturbs the comfort or quiet enjoyment of units or common elements.
NOT PERMITTED	Noise from an instrument, device, party, renovation, or other source that may disturb other residents.
PLEASE DO	Keep voices, music, door closing, moving activity, and loading noise low in hallways, elevators, lobbies, and other shared spaces.
PLEASE DO	Confirm any current renovation hours or quiet-period policy with management before scheduling noisy work.

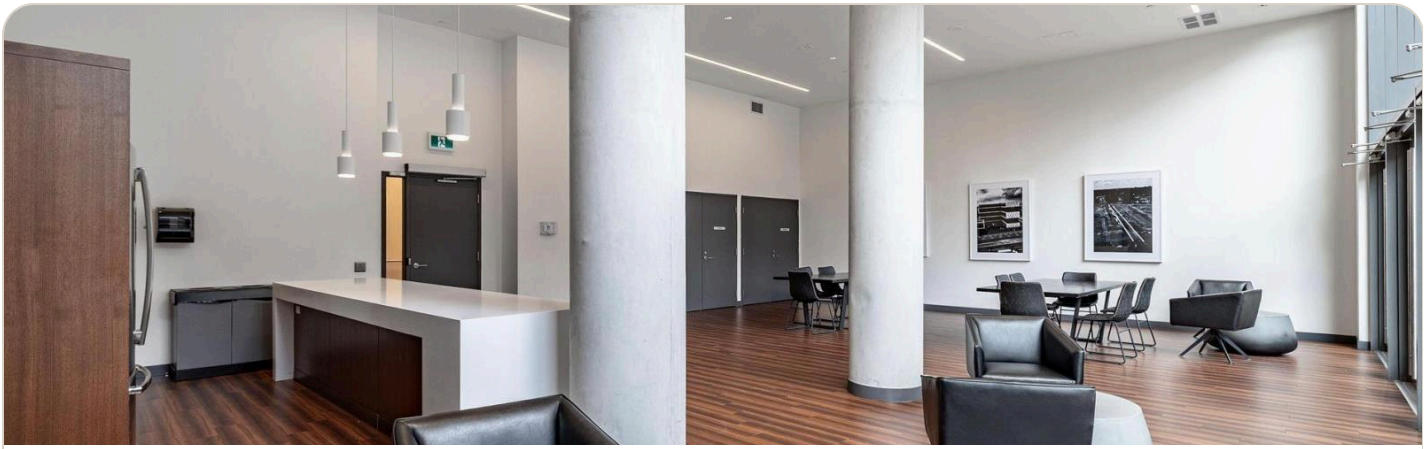

Noise rules apply at all times: Schedule XII Rules 6 and 8 prohibit noise or nuisance that disturbs other residents. Follow any additional hours stated in a current board policy or management notice.

Sources: Schedule XII Rules 6 and 8.

10

Amenities

Amenity hours, reservations, deposits, guest limits, and closures are operational matters. Check current postings or contact management before use.

Party or multi-purpose amenity room. Availability and booking conditions may change.

CHECK FIRST	Confirm current gym, party-room, guest-suite, courtyard, and other amenity hours and booking requirements.
NOT PERMITTED	Entering mechanical, maintenance, utility, or restricted storage areas without authorization.
NOT PERMITTED	Storing personal property in hallways, stairwells, parking areas, chute rooms, or other common elements.
ASSIGNED LOCKERS	Use only a storage unit or locker assigned to or lawfully leased with your unit and follow all current fire-safety and storage policies.
LOCKER PADLOCK	Storage lockers are privately owned units, and the owner (or tenant, together with the landlord) is responsible for securing the locker. The Board strongly recommends an enclosed (shrouded) shackle padlock of hardened steel, at least 10 mm thick. Luggage locks, cable locks, and dial combination locks can be cut or opened in seconds. The Corporation's insurance does not cover personal belongings, so insure stored items under your own policy.

Use only corporation-designated barbecue in courtyard and follow all posted hours, booking conditions, and safety instructions. Barbequing and cooking shall not be performed on an owner's patio, balcony and/or terrace.

11

Pets

The rules permit pets subject to a two-pet maximum, control in common areas, cleanup, and nuisance restrictions.

MAXIMUM	Up to two pets per unit.
NOT PERMITTED	Animals, livestock, or fowl other than a pet.
LEASH	Keep pets on a leash in common-element areas normally travelled by pedestrians.
CLEANUP	Prevent pets from defecating on common elements. If an accident occurs, clean it immediately.
NUISANCE	A pet deemed a nuisance by the board or manager, in the discretion stated in Rule 7, may not be kept on the property.
REMOVAL NOTICE	If an owner fails to clean up after a pet, Rule 7 deems the pet a nuisance and requires permanent removal within two weeks after the owner receives written notice requesting removal.

Pet Registration

Residents shall register their pets with property management by providing a photograph, along with each pet's name, type, breed, colour, size, weight, and service animal status.

Sources: Schedule XII Rule 7; Pet Registration Form.

12

Parking & Vehicles

Park only in a space assigned to you or otherwise authorized. Register vehicles with management.

PERMITTED TYPES	Motorcycles, private passenger automobiles, station wagons, light-duty vans, light-duty pickup trucks, and sport utility vehicles that are in good working order and do not leak fluids.
NOT PERMITTED	Vehicle repairs on common elements or parking units, or using parking areas to store parts, equipment, or materials.
NOT PERMITTED	Parking in designated visitor or accessibility spaces as a resident or unit owner.
VISITOR PARKING	Visitors must display a valid visitor parking pass. Each pass allows parking in the visitor area for 24 hours.
PASS LIMIT	A maximum of three visitor parking passes per unit per month. Only one pass may be used by a unit at a time, which limits the unit to one visitor parking space.
GETTING A PASS	Passes are issued only by Security at the front desk, to a resident of the unit. The visitor must first park and note the space number (for example, V1 to V5). Passes are not issued in advance. Security may ask for identification to confirm residency.
DISPLAY	Display the pass clearly on the dashboard. A pass that is partly hidden or unclear may result in a parking ticket.
ENFORCEMENT	Vehicles without a valid pass may be ticketed by the City at any time. Security will request enforcement for every violation, and Security may photograph dashboards where a pass is missing or not displayed. A vehicle ticketed by the City three consecutive times is subject to towing at the owner's expense.
NOT PERMITTED	Obtaining a pass using an unrelated or unauthorized unit number.
REGISTRATION	The approved vehicle form warns that unregistered licence plates may result in garage-remote access being deactivated.
RENTED SPACE	If renting a parking space from another resident, provide management with the requested parking-rental information or agreement.

Visitor-parking rules and pass procedures may change. Follow current signage and instructions from Security, concierge, or property management.

Sources: Schedule XII Rules 10 and 11; Vehicle Registration Form; TSCC 2937 Visitor Parking Policy (property management, August 2026).

13

Switches & Outlets

Some suite wall switches control a receptacle rather than a ceiling light. Other switches may be connected to unused electrical boxes provided for optional lighting that was not installed.

SWITCHED OUTLET	A wall switch may control one half of a nearby duplex receptacle. The switched half is usually the bottom socket and may be identified by a blue sticker.
HOW TO CHECK	Plug a lamp into each half of the receptacle and operate the nearby wall switches. This can help identify which socket is switch-controlled.
KITCHEN SWITCHES	A switch that appears unused may be pre-wired to an unused electrical box intended for optional lighting that was not installed, such as pendant or ceiling lighting.
UNIT DIFFERENCES	Switch and receptacle locations can vary by suite layout, and stickers may be missing, moved, or removed. Do not assume every blue-marked or bottom socket is switch-controlled without testing it.

Electrical safety: Do not remove cover plates, open electrical boxes, or alter wiring to investigate a switch. Use a licensed electrician for installation or electrical changes and confirm whether management or corporation approval is required before work begins.

Source: Board-approved building electrical guidance. Original suite configurations and later alterations may differ.

14

Unit Routine Maintenance

A few routine habits inside your unit protect building systems, prevent avoidable damage, and keep shared infrastructure working for every resident.

Dryer Lint Filter

AFTER EACH LOAD	Clean the dryer lint filter to reduce fire risk and maintain appliance efficiency.
WEEKLY	Clean the closet filter to ensure proper ventilation and prevent lint buildup.
IMPORTANT	A clogged lint filter reduces dryer performance, increases energy consumption, and poses a fire hazard to your unit and the building.

Fire safety: A neglected lint filter is a leading cause of dryer fires. Lint accumulation can ignite and create dangerous conditions. Regular cleaning is one of the most important unit-maintenance tasks.

Drains, Sinks & Toilets

NOT PERMITTED	Pouring cooking oil, grease, fat, or meat drippings down any sink, drain, or toilet. These cool and harden inside the pipes and build into blockages.
NOT PERMITTED	Flushing or rinsing away clumping or fibrous waste, including wipes of any kind even when labelled flushable, paper towel, dental floss, cotton swabs, hair, coffee grounds, rice, pasta, flour, or clumping cat litter.
PLEASE DO	Let fats, oils, and grease cool, scrape them into a sealed container, and place that container in your solid waste. Use a sink strainer to catch food solids.
RESPONSIBILITY	Drain lines are shared between units, so a blockage rarely stays in one suite. Costs to clear damage caused by misuse may be charged back to the unit owner responsible.

Slow drain or backup: report it to concierge or property management early. A developing blockage is far less costly to clear than an overflow that reaches neighbouring or lower units.

Extended Absences

WATER	Before leaving for an extended period, such as a vacation, close your unit's water shut-off valves.
ELECTRICITY	Unplug non-essential appliances and equipment before you leave.

Why it matters: Shutting off the water reduces the likelihood of prolonged or severe water damage to your unit and to neighbouring units, and unplugging idle equipment limits unnecessary energy consumption.

Sources: Schedule XII Rules on water, drains, and waste; Declaration provisions on owner responsibility and chargebacks; general fire-prevention, appliance-safety, and water-damage prevention practice.

15

Reporting a Concern

Report matters to the party best placed to act. Do not delay an urgent safety, security, water, fire, or access report while waiting for a landlord response.

1. **Emergency or immediate danger:** call 911. Notify concierge or management when safe.
2. **Building operations, security, access, noise, parking, pets, waste, or common-element concerns:** contact concierge or property management.
3. **Lease terms, rent, unit-owner obligations, or repairs requiring the owner's authority:** contact your owner or landlord.
4. **Unresolved condo dispute:** document the issue, request a written response, and review the Condominium Authority of Ontario's current dispute-resolution information.

Include These Details

- Date and time
- Exact location
- Clear description
- Duration or frequency
- Photos, video, or other evidence where lawful and available
- Your name, unit number, and contact information
- Steps already taken
- Requested action or outcome

> **About the Condominium Authority Tribunal:** current CAO guidance states that tenants cannot file CAT applications. Tenants should work with their landlord where an owner application is required, although tenants may be respondents or may join a case when formally invited. CAT jurisdiction is limited to specified condo disputes.

Official resources: CAT jurisdiction and CAO tenants' guide.

16

Sources & Document Control

This official guide was approved for publication by the TSCC 2937 Board of Directors and checked against the following corporation documents.

Document	Used for
Declaration - TSCC 2937	Owner responsibility, chargebacks, common elements, occupancy and use.
By-Law No. 1 & Combined Bylaws	Corporate governance context and document hierarchy.
Schedule XII - Rules	Water, signs, fire risk, waste, noise, pets, passageways, vehicles, parking, landscaping, balconies, storage, and costs.
Elevator Reservation Agreement & Inspection Checklist	Forms, $500 bank draft, time slots, move restrictions, inspections, and protective measures.
Renter Registration Forms package	Form 5, tenant registration, vehicle registration, parcel waiver & pet registration.
Board-approved building electrical guidance	Switch-controlled receptacles, blue identification stickers & optional unused lighting boxes.
CAO official guidance	Tenant information & current CAT filing/jurisdiction explanation.
Board Meeting Minutes - June 3, 2026	Current board officer designations and Board Members page.

Revision Control

The board or authorized property-management representative will verify the following operational information during each revision:

- Property-manager, concierge, emergency & after-hours contact information.
- Management office hours.
- Waste-sorting, chute, recycling, organics & bulk-item procedures.
- Any board-approved noise, quiet-hours, or renovation-hours policy.
- Amenity hours, deposits, reservation conditions, closures & barbecue availability.
- Visitor-parking layout, hours & capacity.
- Moving deposit, payment method, elevator schedule & inspection procedure.
- Switch-controlled receptacle markings & optional-lighting-box guidance.
